Cedar Cladding

The perfect fusion of
strength and elegance

Cedar Cladding

100% Kiwi Owned and Operated

As a proud New Zealand-owned company, we deeply understand the unique needs of local builders and architects. Rooted in Kiwi craftsmanship, our products are thoughtfully designed to complement New Zealand's environment, architectural styles, and market standards.

Direct Importers with Procurement Expertise

We directly source our cedar from trusted international suppliers, ensuring consistent quality, reliable availability, and competitive pricing. With years of procurement expertise, we carefully select premium-grade timber, so every piece exceeds expectations and enhances your project's vision.

Decades of Timber Expertise

With a heritage spanning generations, Genia has stood at the forefront of New Zealand's timber industry. Our unmatched knowledge and passion for wood ensure we deliver products that meet the highest standards of durability, aesthetics, and performance.

Efficiency and Innovation in Every Step

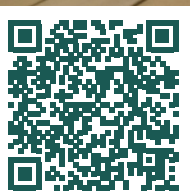

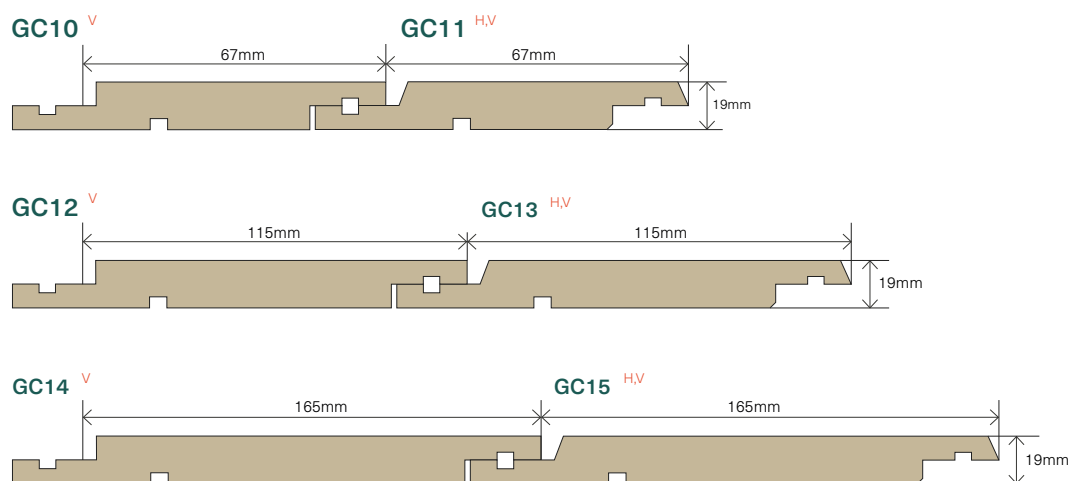

We're dedicated to making your projects smoother and more cost-effective. From direct supply to optimised lengths that minimize waste, flexible credit terms for builders, and clear communication, our streamlined processes save you time and money.

Factory Oiled for Ultimate Protection

Our cedar cladding is expertly factory oiled, offering a consistent finish and enhanced protection against the elements. This pre-treatment not only highlights the natural beauty of the timber but also reduces on-site preparation time, helping you achieve exceptional results faster.

Profiles

Profile	Profile size	Profile cover	Available Application	
GC10	92 x 19	67mm	V	(Vertical)
GC11	92 x 19	67mm	H, V	(Horizontal, Vertical)
GC12	140 x 19	115mm	V	(Vertical)
GC13	140 x 19	115mm	H, V	(Horizontal, Vertical)
GC14	190 x 19	165mm	V	(Vertical)
GC15	190 x 19	165mm	H, V	(Horizontal, Vertical)

Natural Beauty Durability & Sustainability

Why Choose Cedar Cladding?

Aesthetic Appeal:

Cedar's rich, natural hues and distinctive grain patterns bring warmth and timeless elegance to any building, whether exterior or interior.

Durability:

Naturally resistant to rot, decay, and insect damage, cedar cladding performs beautifully in all weather conditions.

Energy Efficient:

Cedar's natural insulation properties help maintain consistent indoor temperatures, reducing heating and cooling costs.

Eco-Friendly:

Cedar is a renewable, biodegradable resource when sourced responsibly, making it an environmentally sustainable choice.

Sustainably Sourced:

Choose cedar for a natural, eco-conscious solution that enhances your space while benefiting the environment.
