

BOSCH

Invented for life

Dishwasher Range.

Quiet. Efficient. Advanced performance.

**WORLD'S
BRAND NO.1** *

*For Dishwashers. Source: Euromonitor International Limited, volume sales, 2019.

Why choose Bosch?

World's No. 1 Dishwasher brand.*

With over 50 years of innovation and success in dishwasher manufacturing, you can count on Bosch's brand promise of superior quality and reliability to deliver perfect washing results.

*For Dishwashers. Source: Euromonitor International Limited, volume sales, 2019.

Quality comes from experience.

All Bosch products are manufactured to highest possible standards, using only premium quality materials. We undertake quality and endurance tests for our products under continuous usage conditioning. Not a single appliance leaves our factory until it has been proven to meet our high standards.

Extremely quiet operation.

Bosch dishwashers are so quiet you won't even hear them running. With a brushless motor and advanced sound insulation technology for extremely quiet operation from just 40dB. Quieter than light rain.

Sustainability.

Bosch products have been manufactured with the aim of minimising their impact on the environment. The signet stands for the resource-efficiency of our products – quite simply, for their 'Green Technology'.

Extensive Customer Service Network.

Our friendly Bosch Customer Care team is on-hand to provide competent, reliable assistance. Before or after purchase, the Bosch team will be happy to advise you on products, their use and special functions.

Reliability Guaranteed.

We offer a 2 year manufacturer warranty on all our appliances, plus a 10 year warranty against rusting-through of the dishwasher's stainless steel inner tub and an AquaStop Plus anti-flood protection guaranteed for the life of the dishwasher. The appliance must be registered with the warranty card or online at www.bosch-home.co.nz/mybosch

Advanced technologies from Bosch.

PerfectDry.*

PerfectDry is a clever function unique to Bosch, which saves energy by using natural minerals in our Zeolith technology for optimal drying of plates, pans, glasses and even plastic items. PerfectDry based on Zeolith can be found in selected Series 8 dishwashers.

ActiveWater technology.

This innovative rinsing technology maximises efficiency and ensures excellent cleaning results. The water and energy are saved through targeted water distribution, optimised filter technology, faster heating and higher pump performance for increased water circulation.

AquaSensor and LoadSensor.

The AquaSensor monitors the progress of the wash and decides the exact temperature, duration and amount of water used, based on the soiling of the water. The LoadSensor detects the load weight by a rotary speed sensor, which recognises the water level. This optimises water usage for half or partial loads, resulting in savings for your utility bills.

Advanced filter system.

The three stage filter cleaning provides a more efficient filtering performance for clean dishes and prevents blockages.

#Features vary depending on model. Please check individual product specifications.

Bosch Dishwashers.

Series 8: Best in class.

Our Series 8 range combines cutting-edge design and advanced technologies for optimum cleaning performance and hygiene. Their high Water and Energy Star rating helps cut down your utility bills, the VarioFlex Pro baskets offer you the ultimate flexibility in loading solutions and they are exceptionally quiet from 40dB (ExtraQuiet program).

Series 6: The top performer.

Our Series 6 range comes packed with technology, from energy and water saving modes to quick washes for when time is limited. They also feature VarioFlex Plus baskets for flexible loading solutions to accommodate dishes of all shapes and sizes.

Series 4: Your everyday dishwasher.

Our Series 4 range offers great value for money whilst maintaining Bosch high quality and reliability standards. They include advanced energy and resource saving features and VarioFlex baskets that have foldable racks.

Choose the right design for your kitchen.

Freestanding

Freestanding dishwashers can be installed anywhere in your kitchen.

- ▶ Designed to stand alone, but fit easily into a cabinet space
- ▶ Removable worktop (to accommodate a bench top)
- ▶ Elegant curved fascia

Built-under

Built-under dishwashers fit into a new or existing kitchen with style.

- ▶ Flat control panel
- ▶ Adjustable height for flush fit
- ▶ The 45cm slimline built-under dishwasher is ideal for kitchens with limited space

Installation tip

For all types of dishwasher installation, leave a space of 100 x 50mm for water inlet and outlet.

Advanced features and functions for every need.#

Performance

DosageAssist detergent dispenser.

Unique to Bosch, DosageAssist ensures detergent tablets are dissolved efficiently in a special tray. It prevents the tablets sticking in between dishes, for an enhanced cleaning performance.

EcoSilence Drive.

Our advanced motor has been built to provide you with maximum efficiency, economy and durability while operating. EcoSilence Drive wash and drain pumps work without brushes, resulting in ultra-quiet performance and top results.

SpeedPerfect express wash option.

With this feature, you can look forward to optimal cleaning and drying results in only up to 50% of dishwashing time (depending on model and selected program), without sacrificing any washing and drying results.

MachineCare.

Maintains the wash quality and reliability of your dishwasher throughout its lifetime. MachineCare helps remove grime and limescale build-up from your dishwasher to keep it clean and fresh. We recommend using this function once a month or after every 30 wash cycles.

Extremely durable Stainless steel or Polinox tub.*

We use high-quality sheets of stainless steel or highly durable, odourless polinox inner tubs. German engineered with robust materials that withstand dents, scratches and discolouration.

Convenience

VarioFlex Baskets with touchpoints.*

VarioFlex: 4 folding racks.
VarioFlex Plus: 8 folding racks.
VarioFlex Pro: 14 folding racks and premium handles.

VarioDrawer and VarioDrawer Pro.*

A third loading level for cutlery and utensils. VarioDrawer Pro provides loading flexibility for larger items.

Rackmatic Plus adjustable basket.

The loading height in the upper or lower basket can be varied by 5cm by manually adjusting the upper basket between two levels. This feature can still be utilised even with a full load.

Home Connect.*

The Home Connect function, available on the Series 8 dishwasher SBV88TX06A, opens up totally new possibilities in your home. You can now control and monitor all your appliance remotely and conveniently from your smartphone or tablet, which makes your everyday life even easier – and of course lets you achieve perfect results.

Safety

AquaStop Plus.

The AquaStop Plus system offers 100% protection against water damage. Unlike other anti-flood devices, the AquaStop Plus operates 24 hours a day, 7 days a week, provided the dishwasher is switched on at the mains.

#Features vary depending on model. Please check individual product specifications.

Why should you use a dishwasher?

The main thing many people dread after cooking up a storm is the aftermath – washing the stack of pots and plates lying in the sink. Not only does hand washing your dishes take up a lot of time and effort, you also have to worry about broken plates and being in constant contact with chemicals from your dish soap.

Hygienic

Dishwashers provide a hygienic solution to washing various kitchen utensils and crockery. Additionally selected Bosch dishwashers feature the HygienePlus wash option that utilises a hotter final rinse, perfect for removing bacteria from your cooking utensils and baby bottles. The drying cycle in all Bosch dishwashers is also very hygienic as no external air is introduced into the dishwasher during drying.

Saves water

A Bosch dishwasher uses between 7 and 19 litres of water to wash a load (depending on model and selected program). Thanks to intelligent sensors and programs a Bosch dishwasher can help you save water. For example the AquaSensor measures the amount of soiling at the end of the pre-rinse cycle, reusing water when it can, saving up to 20% of water for the entire wash.

Cleans tough stains

Dishwashers remove tough stains with their internal high-pressured water jets. Other items such as wine glasses, beer glasses and baby bottles can also be cleaned thoroughly with the help of a dishwasher, as it's able to reach all nooks and crannies.
