**TAPWARE AND SHOWER COLLECTION**

# GREENS

where life meets water

Greens originally began in 1935 in Hamilton, turning its hand to tapware in the late 1970s. Today, Greens Global Limited is a privately owned New Zealand company, with its head office based in Hamilton, New Zealand.

In the last decade we have moved from traditional manufacturing to a strong emphasis on Design, Engineering and Development of our products. Greens tapware is designed in New Zealand and produced using carefully chosen material so that we can provide the best quality and service to our customers.

We design and distribute tapware and showers under the Greens Tapware brand to both local and international markets including NZ, Australia, the UK and the USA.

# AT GREENS, WE UNDERSTAND WATER

Water is a scarce and valuable resource and each market we operate in has specific standards and requirements about the products that deliver water.

## **Greens Products - Water Pressure Guide**

Please check that you are buying the right taps or showers. Greens have a solution for all water pressure situations.

Alongside each Greens product you will find one of these symbols which denotes the performance of the product in various pressure environments. The symbols are designed to make it easy for you to identify products that best suits your requirements:

**MP** - Products are suitable for only (high pressure from 150kPa - 500kPa)

**AP** - Products are suitable for all pressures (from 35kPa)

**FB** - Shower Mixers including the FloBOOST® technology are suitable for all pressures (from 10kPa unequal | 20kPa equal).

## **Water Efficiency Labelling Scheme (WELS)**

We take our environmental responsibility seriously. The Water Efficiency Labelling Scheme (WELS) is designed to provide information through labelling at the point of sale, to consumers buying the products that use water. The purpose of the label is to help consumers choose products that use less water but still provide a satisfactory level of quality and performance.

Water connects us all. It informs and inspires us and it energizes our relationship with life. No matter where you live, what your lifestyle, or your water pressure, Greens products use technology specifically designed for both form and function to inspire you to create an incredibly functional and desirable space.

## WARRANTY GUIDE

**Merchants:** Please call us **BEFORE** you advise the customer to call a plumber.

**End users:** Please call us **BEFORE** you contact a plumber or try and fix the problem yourself.

**We can discuss the nature of the problem and how we may be able to help.**

**WARRANTY PHONE NUMBER: 1800 244 487**

### RESIDENTIAL WARRANTY

Where Greens Tapware and showers are purchased for use in domestic residential installations, the purchaser or end user may have recourse or remedy under any relevant consumer protection legislation. In addition, Greens undertakes to either repair or replace (at Greens discretion) the tapware or shower fitting, if it is discovered that such tapware or shower contains a material defect which arose in the course of manufacture. The warranty commences on the date of purchase of the product.

RANGE	WARRANTY	
Tapware	20 YEARS	<b>20 Years</b> Cartridge <b>Lifetime</b> on Brass Ceramic Cartridges <b>5 Years</b> replacement on product or parts <b>1 Year</b> Labour Warranty (Replacement product, parts & labour)
Showers	10 YEARS	<b>10 Years</b> Replacement product or parts only
Finishes All Products	5 YEARS	<b>5 Years</b> Chrome & PVD Finishes (Replacement product & parts only. PVD colours include - Brushed Nickel, Brushed Brass, Brushed Copper, Gun Metal) <b>3 Year</b> PVD Matte Finishes (Replacement product & parts only. PVD Matte colours include - Matte Black & Matte White) <b>1 Year</b> Warranty on Powder Coated Finishes (Replacement Product & Parts) <b>1 Year</b> Labour warranty for all finishes (Replacement product, parts & labour)
Bathroom Accessories	1 YEAR	Replacement product or parts only
All Consumables & Spare Parts	1 YEAR	<b>Consumables include:</b> Spout seals, O-rings, aerators, kitchen pull-out/pull-down hand pieces, hoses and diverter headworks, Slider control, soap dishes, wall fixings, mounting brackets and hoses. All replacement spare parts.

### COMMERCIAL WARRANTY

This applies to all non-residential installations including (but not limited to) hotels, motels, rest homes, hospitals, offices, retail outlets, gyms, factories, schools and restaurants. The product is warranted to be free from defects in materials and workmanship and the warranty commences on the date of purchase of the product.

RANGE	WARRANTY	
All Products	1 YEARS	Cartridge, Labour, Finishes, replacement product or parts <b>Consumables:</b> Spout seals, O-rings, aerators, kitchen pull-out/pull-down hand pieces, hoses and diverter headworks.

### LEGAL REQUIREMENTS

The warranty only applies to the original owner and is not transferable. In addition to this warranty, certain legislation (including the ACL) may give you certain rights which cannot be excluded, restricted or modified, this extended warranty must be read subject to such legislation and nothing in this warranty has the effect of excluding, restricting or modifying those rights.

In addition to this warranty, our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

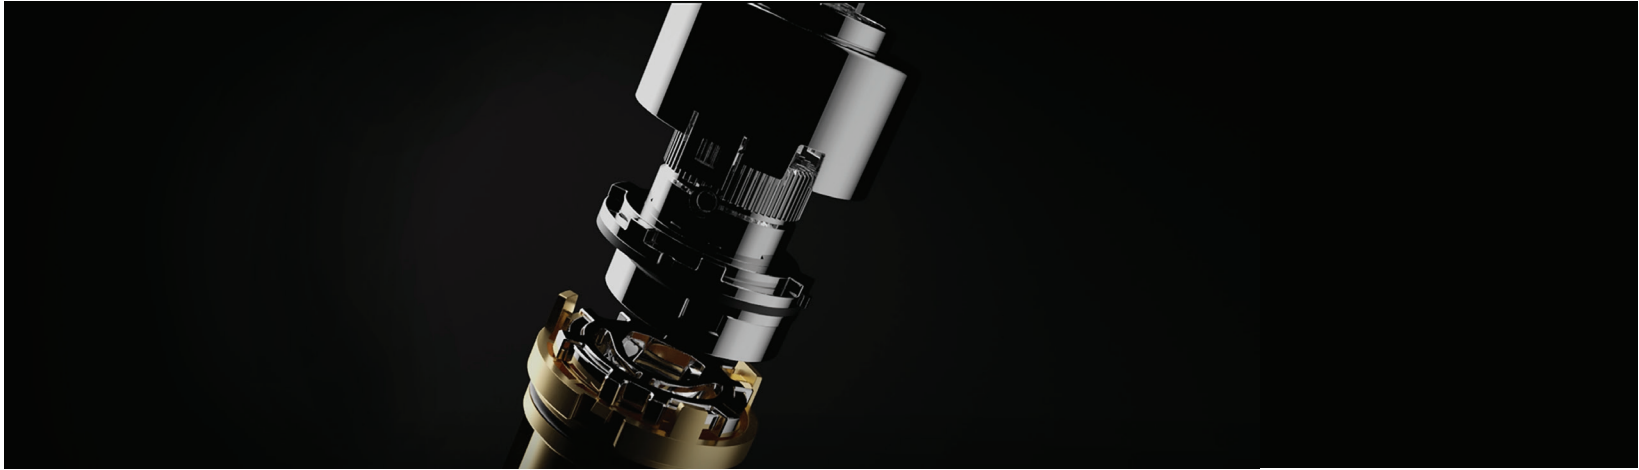

### WARRANTY CONDITIONS:

The following conditions must be met, or the warranty will be deemed null and void.

1. Proof of purchase (invoice or receipt) must be provided.
2. The Greens product warranty is applicable only on items purchased and installed in Australia.
3. The claimant must be the original purchaser.
4. The product must be in the original building it was installed in.
5. The product must be installed by a licensed plumber and Greens installation instructions must be followed.
6. Temperature and pressure limits within the installation instructions must apply.
7. All products must be installed to relevant National Standards and State Regulations.
8. The product has not been tampered with or repaired in any way.
9. The product has not been damaged by misuse, accident, or neglect.
10. The product does not contain excessive debris.
11. The product has not been exposed to external environmental elements.
12. All repair work is to be pre-approved by Greens, and undertaken by its authorised service agent.
13. Use of improper cleaning products, including cream cleaners and cleaners containing corrosive acids, scouring agents or solvent cleaners will void this warranty.
14. Other conditions may apply depending on the nature of the installation.

Greens shall in no way be liable to the purchaser or end user of Greens Tapware or showers for any loss, damage (direct, indirect or consequential), cost or expense suffered or incurred by that person other than as provided in the above provisions, under any relevant consumer protection legislation or as consented to by Greens Tapware in writing in advance.

**NOTE - If the Product has not been installed, the Product can be returned with Proof of Purchase, to the place of purchase. If the cost of returning any defective product is unreasonable, please phone or email so that, if appropriate, we can arrange a collection.**

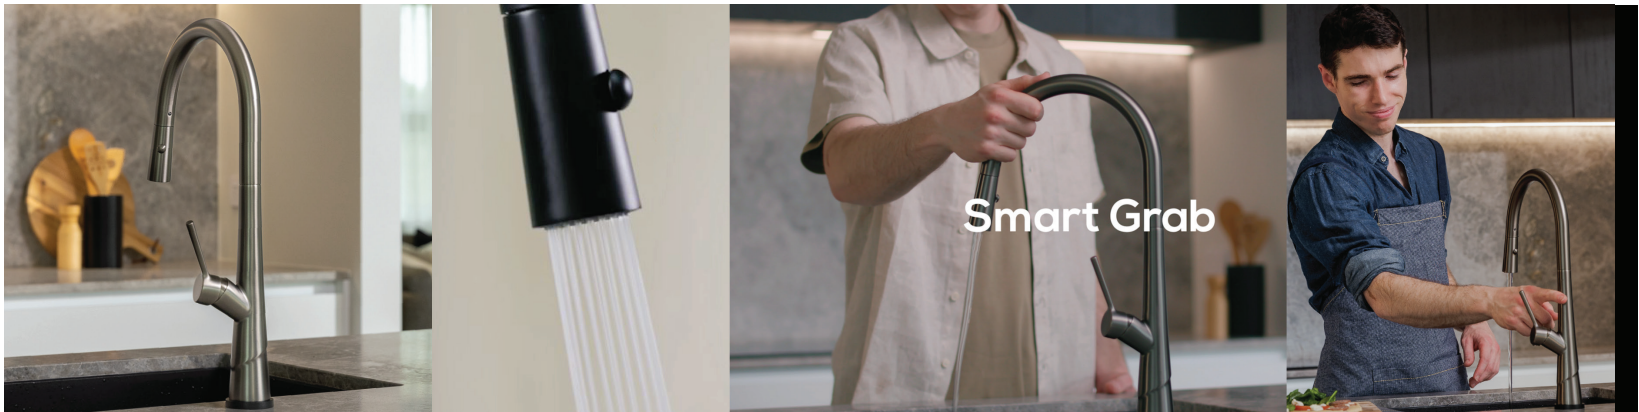

## QL CARTRIDGE

TECHNOLOGY

Residential water pressure is affected by several influences including the type of hot water system you use, the water supply feeding your home and the height of your residence in a multi-level dwelling. Therefore choosing the right tapware and showers for your home can seem daunting.

Greens make it easy. We have a number of ranges specifically designed to work on low pressure or gravity fed systems using our unique Greens QL Cartridge. And even if you don't know what water pressure you have, these Greens ranges will work on high pressure systems as well.

Suitable for installations from 20kPa to 1000kPa.

## KONTACT<sup>®</sup>

TECHNOLOGY

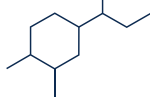

The Greens Kontakt<sup>®</sup> Touch Technology is the perfect functional addition to any new or existing home.

This sensor technology, currently available in our Lustro Kontakt<sup>®</sup> Sink Mixer, allows the water flow to be turned on and off by touch without the need for the water handle to be turned off. Innovative Smart Grab technology recognises the difference between touch control and when a user grabs and repositions the mixer ensuring the water stays on during use. Our Kontakt<sup>®</sup> technology also features a 4 minute auto-off timer to ensure your peace of mind.

## RainBoost®

For a shower as perfect as a good night's sleep, try the RainBoost® shower by Greens.

RainBoost® shower technology has been specifically designed and developed for varying water pressure conditions.

Engineered to maximise shower flow and coverage out of low pressure water systems down to 20kPa, as well as performing on high water pressure systems.

Suitable for all pressures from 20kPa.

## AirFlo® TECHNOLOGY

Try Greens AirFlo® shower technology for a world of difference in your daily showering.

The AirFlo® shower range uses advanced technology to push air into the water stream to filling the water droplets with tiny bubbles of air to create a wonderful, invigorating spray.

AirFlo® features an adjustable multifunction spray handset with three spray patterns - normal, massage, and combined. AirFlo® shower technology is water efficient with a 3 Star WELS rating.

## GREENS PRODUCT CARE & MAINTENANCE

Maintenance of the finish of your tapware is important. Here are a few simple tips to follow:

### **CHROME FINISH**

Chrome plated surfaces should be cleaned with a soft damp cloth using warm water only, then wiped dry with a soft damp micro-fibre cloth to avoid water spots.

Do not use cleaning agents containing a corrosive acid or scouring agent, as well as cream cleaners (they are abrasive), as they may damage the surface which can void your warranty.

### **OTHER FINISHES INCLUDING PVD**

**Matte Black | Brushed Nickel | Brushed Stainless | Brushed Brass | Gun Metal | Brushed Copper**

Surfaces should be cleaned with a soft damp cloth using warm water only, then wiped dry with a soft damp cloth to avoid water spots.

Do not use cleaning agents such as vinegar or those containing a corrosive acid or scouring agent, as well as cream cleaners (they are abrasive), as they may damage the surface which can void your warranty.

### **STAINLESS STEEL 304**

Stainless steel surfaces should be cleaned with a soft damp micro-fibre cloth using water mixed with a mild liquid detergent only, then wiped dry with a soft damp micro-fibre cloth to avoid water spots.

Do not use cleaning agents containing a corrosive acid or scouring agent, as well as cream cleaners (they are abrasive), as they may damage the surface which can void your warranty.

### **OUTDOOR INSTALLATIONS**

Stainless Steel 304 is suitable for most outdoor installations but not in coastal areas. Stainless steel surfaces should be cleaned weekly with liquid detergent and water, then sprayed with fresh water and then wiped dry.
