# Time for an upgrade?

## Is your heat pump over 10 years old?

Many units installed after the Christchurch earthquakes are now reaching the end of their lifespan. An older system may be inefficient, noisy, or struggling to heat and cool your space effectively.

## We make replacing your outdated unit easy

- ✓ Expert advice on the best replacement options
- ✓ Supply and install of top-brand heat pumps
- ✓ Energy-efficient upgrades that save on power bills
- ✓ Full removal and disposal of old units

**Upgrade now for a warmer, more efficient home!**

# Building a new home?

## Think smart climate comfort.

Planning a new build? Now's the perfect time to future-proof your comfort. We specialise in custom ducted heat pump systems, delivering quiet, energy-efficient, whole-home comfort.

## Smart home heating & cooling

- ✓ No bulky wall units – just discreet ceiling vents
- ✓ Zoned control options for different rooms
- ✓ Control temperature via smartphone or tablet
- ✓ Set schedules and manage energy use remotely

**Custom-designed systems to suit your lifestyle!**

Let us bring comfort, efficiency, and smart control to your home. Get in touch today.
