

BIM PROJECTS

TECHNOLOGY LEADING CONSTRUCTION

COMPANY PROFILE

Why choose us?

Our goal is to make your building journey a seamless and enjoyable experience. We refurbish, renovate and build homes of the highest standard, outstanding quality, and have a BOLD and DISTINCT style to fit your family's specific needs.

We are your Residential Renovations & New Home Construction Specialists

Serving our loyal Wellington clients and the wider regions with over two decades of experience, you can be confident you will receive a high standard of expert advice, provision of works and tailored construction that suits the nature of our province whilst exceeding your desired outcomes.

We are with you every step of the way

We understand that building and renovating can be a stressful at times and often a daunting task to embark on. This is why we detail the process of your project, including expected timelines in our agreement and our director Kane Chamberlain will personally communicate with you on all major aspects of your construction to ensure every need is met prior to, during, and beyond completion. As a valued BIM Projects customer you have access to your own personal portal which will contain all information related to the project and provide an easy way to communicate with our team to ensure nothing is missed.

We maintain safe, clean and organised sites.

Our team values personal safety and we respect your home as our workplace. We implement a workplace health and safety management plan for each site which you will receive a copy of. Our team are experienced in complying with our high standards and you can be assured that we conduct regular site audits to maintain these high standards.

No hidden costs

Our director will meet with you to discuss the details of the contract and will also make sure any amendments that arise during your build are agreed by both the client and builder to ensure we maintain a high level of integrity.

Expert, reliable and fully licensed subcontractors

We personally select and interview our subcontractors based on their expertise, insurances and integrity to ensure they deliver unparalleled finishes on your project. Unfortunately, there are many trades out there that do a disservice to the industry, choosing the right ones is what sets us apart from our competitors.

We only recommend and use proven products and techniques

We pride ourselves on using materials and techniques that are fit for purpose, durable and proficient to meet deadlines. We are in consistent contact with suppliers in our changing industry to ensure we are at the forefront of innovation that makes your house a home.

We are New Zealand Certified Builders

Building with a New Zealand Certified Builder gives you peace of mind that we are appropriately licensed, regulated and have the support of a leading industry association, the benefits of which are huge. <https://www.nzcb.nz>
