
Cedar Cladding

Natural Beauty, Durability & Sustainability

Why Choose Cedar Cladding?

Aesthetic Appeal

Cedar's rich, natural hues and distinctive grain patterns bring warmth and timeless elegance to any building, whether exterior or interior.

Durability

Naturally resistant to rot, decay, and insect damage, cedar cladding performs beautifully in all weather conditions.

Energy Efficient

Cedar's natural insulation properties help maintain consistent indoor temperatures, reducing heating and cooling costs.

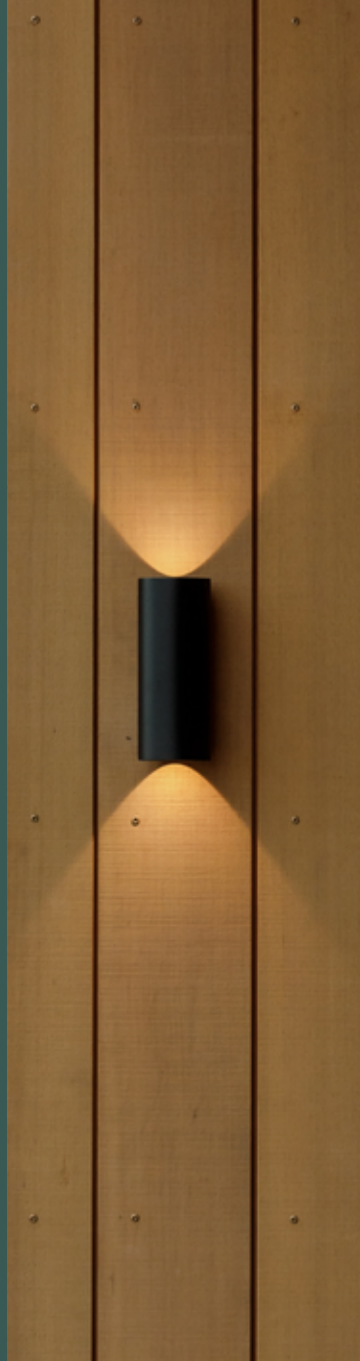

Eco-Friendly

Cedar is a renewable, biodegradable resource when sourced responsibly, making it an environmentally sustainable choice.

Sustainably Sourced

Choose Cedar for a natural, eco-conscious solution that enhances your space while benefiting the environment.

- ☑ Optimised Lengths
- ☑ Bandsawn Finish
- ☑ Factory Oiled

The benchmark for timber cladding.

Rich colour, fine vertical grain and a natural warmth that sets the tone of a building the moment it goes up.

Dimensionally stable, naturally durable and light to handle, cedar performs as well as it looks.

Premium grade throughout, bandsawn and factory oiled on arrival.

Why Specify Genia Cedar

100% Kiwi Owned and Operated

As a proud New Zealand-owned company, we deeply understand the unique needs of local builders and architects. Rooted in Kiwi craftsmanship, our products are thoughtfully designed to complement New Zealand's environment, architectural styles, and market standards.

Direct Importers with Procurement Expertise

We directly source our cedar from trusted international suppliers, ensuring consistent quality, reliable availability, and competitive pricing. With years of procurement expertise, we carefully select premium-grade timber, so every piece exceeds expectations and enhances your project's vision.

Efficiency and Innovation in Every Step

We're dedicated to making your projects smoother and more cost-effective. From direct supply to optimised lengths that minimise waste, flexible credit terms for builders, and clear communication, our streamlined processes save you time and money.

Factory Oiled for Ultimate Protection

Our cedar cladding is expertly factory oiled, offering a consistent finish and enhanced protection against the elements. This pre-treatment not only highlights the natural beauty of the timber but also reduces on-site preparation time, helping you achieve exceptional results faster.

Decades of Timber Expertise

With a heritage spanning generations, Genia has stood at the forefront of New Zealand's timber industry. Our unmatched knowledge and passion for wood ensure we deliver products that meet the highest standards of durability, aesthetics, and performance.
