Care *instructions*

Following these simple care instructions will help you keep your furniture looking its best for years to come.

Wipe your furniture item regularly with a clean, soft cloth to keep it free of dust and dirt.

Clean up spills as soon as possible using a damp cloth and mild soap. Dry the furniture item thoroughly after cleaning.

To prevent scratches or damage to the surface of your furniture item use coasters and placemats under glasses, plates and other objects.

Do not use harsh chemicals or abrasive cleaners on your furniture item as they may scratch the surface or damage the powder coated finish.

Avoid placing your furniture item in direct sunlight for prolonged periods, as this can cause the powder coated finish to fade or discolour over time.
