

Desejo

Hardware

An opening to your story

Dressing doors and cabinets with opening hardware is an art. The right handle adds an accent of intrigue. A simple, strong design has its aesthetic lifted the way an instrument lifts a melody. A bold, uncompromising door or furniture piece is rounded off with something that does not compete or clash. Instead it cleverly catches the eye or settles discreetly into the overall effect. In a home, hotel, museum or yacht, Desejo's hand-picked door furniture blends perfect function with a rich variety of design styles. Every one creates a unique opportunity for a story to be revealed.

Tell your story

Desejo means desire in Portuguese. As founder of Home Factor, creating beautiful homes in New Zealand that blend design influences from across the world, I was inspired to go further. To search the world for genuinely unique, superbly crafted and daringly designed homewares that would complement and elevate any space. My search was successful and we have formed some exclusive relationships with designers and manufacturers to bring you exquisite lighting designs, bold door furniture and distinctively original furnishings. Pieces with the power to transform an apartment, a home or villa, office or boutique hotel, from a fine restaurant to waterborne retreat. Whether you're creating a personal sanctuary, or expressing yourself as an architect or designer on behalf of a client, the pieces you choose reveal something deeper. Through their form and nature, they reveal a glimpse of who you are. What you choose tells a story. Your story.

Priyanka Sareen

Partner Brand - PullCast

Desejo grew out of the successful architectural, design-driven home building business Home Factor. In seeing the pleasure brought by beautiful homes, the founders, Priyanka and Rohit, decided to launch a complementary business that deepened the impact beautiful spaces have upon us, by making the most desirable and beautiful homewares available also. We understand the pleasure and comfort that unique furnishings, daringly original lighting and boldly imagined door furniture bring. How they transform a room. How they allow us to reflect our tastes and personal stories through what we choose.

That's why we've partnered with an amazing hardware brand, PullCast, that we are proud to invite you to discover.

PullCast was created to fill the void of beauty and authenticity in the world of decorative hardware. Taking inspiration from nature's grace, the modern world and the history of art, PullCast embodies different styles and aesthetics while maintaining a clear vision and original pieces of art. Their decorative hardware reveals a sense of distinct and original design, made with lavish techniques that emerged centuries ago. Every creation is engaged with perfection and every accessory is made with mindfulness of functionality and style.

Expect to find a truly inspiring and deluxe getaway in the exploration of new aesthetic design approaches covered in PullCast's five exclusive collections. Altogether expressing an innovative jewelry concept for decorative and architectural hardware, cocooning royal rarity through heritage and handcrafts.

The brand designers and artists are continuous voyagers, blending diverse and distinct worlds with artistry and excellence. PullCast's purpose is to provide you extraordinary feelings through their unique timepieces embodied in artistry, diligence, passion, taste, innovation, and timing.
