From the Founder

I've always wanted to design lighting into the permanent Studio Enti collection, transforming classic porcelain forms and spaces with the element of light.

The collection is designed to enhance ambience and mood - bathing everyday spaces with warmth, character, and an earthy, tactile tranquility that evolves with the time of day.

Using only the highest quality materials and local, small batch production, pieces can be ordered in a range of signature Studio Enti hues and finishes giving designers, architects and design lovers ultimate flexibility to personalise lighting and elevate spaces.

Naomi Taplin

The Beauty of Porcelain

Porcelain is such a beautiful material - to look at, to touch, to interact with. When designing, there is an interplay of texture, colour, and dimension. By adding the element of light the tactile nature of the medium evolves with endless opportunity - each piece coming to life with its own unique personality and character.

Colour Nuance

Our signature Studio Enti colour palette is highly regarded, offering subtle tonal variations so clients can find exactly the right tone.

We continue to innovate and evolve adding new variations each year.

Discover how tonal variations and colour selection can influence the mood, translucency and effect of your lighting piece.

Visit our website to see the full Studio Enti palette, or get in touch by phone or email for a personalised colour consult.

Customise Your Project

At Studio Enti we understand detail, subtlety and design. We know that finding exactly the right hue, hardware finish and ultimate light throw will affect and influence the success of your spatial design.

That's why we offer multiple shade sizes, colours, and metal finishes, as well as unrivalled expertise in porcelain, so you can customise your order and elevate your project.

We always enjoy talking design with clients and would love to hear from you.
