A Chance Of Ice Cream

#### About Glenn Jones Art

Glenn Jones Art is a growing collection of art by Glenn Jones from Auckland, New Zealand. We are a family business, Glenn creates the artwork, Julia takes care of the business and our kids help provide lots of inspiration. Glenn Jones Art is an exploration of different styles and ideas often with a cheeky New Zealand influence and all with the aim of putting a smile on people's faces.

#### About Julia

Julia is a qualified engineer and established a career as a project manager in construction before becoming mum to our 3 young children. While on maternity leave Julia became the force behind creating this business. She is often the first point of contact at Glenn Jones Art, overseeing the day to day operation, customer liaison, and strategising the future.

#### About Glenn

Glenn Jones is a designer, illustrator, artist and author. Glenn found internet fame in the mid 2000's with his quirky Tshirt designs that lead to the creation of his own US based brand. Glenn Jones Art started in 2014, since then Glenn has continued to create art and products, finding endless inspiration from his life growing up in NZ in the 70's, 80's through to today where kids play a big part in everyday life.
