

2. Design Consultation

We will use our 3D design software to help you work out an ideal layout. We will also talk you through the materials and finishes

4. Check Measure

If you decide to proceed with the quote, we will take a deposit and then visit your home for a site inspection and check measure

6. Installation

Depending on your finishes, 4-6 weeks after Step 5 is signed-off on your kitchen will be installed. The cabinets are installed first, then the benchtop and finally the splashback

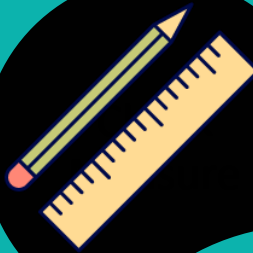

1. Measurements

Visit our showroom with some rough measurements of your room or architects plans

3. Bespoke Quote

Based on the design worked out in stage 2 and the finishes you choose, we will provide you with a quote

5. Production Plans

After Step 4 we will need copies of your appliance specs. Using this information we will prepare a set of production plans with final details of your joinery

7. Kitchen Complete

Your new dream kitchen is now finished! JPC will provide a 7 year warranty for the joinery we provide
