The Mai House tagline is 'Made With Love'. Hay Hay used this as the starting point to create artwork that truly represented the feeling and focal point of this bespoke Hotel. Themes that we incorporated into the artwork were local Vietnamese cultural sights and the Marie Curie school located next to the hotel.

Hay Hay created artwork for all the public space areas including, Lobby, Spa, All Day Dining, Corridors, Lift lobbies, Library, Executive Lounge and Meeting Room. Additional artwork was created for the 224 rooms, Presidential Suite and the Mai House Apartment Building joined to the hotel by a skywalk. SHERATON GRAND - DANANG - VIETNAM

The APEC World Leader summit was held in Danang in 2017. The opening gala was held at the newly opened Sheraton Grand in Danang. Hay Hay was brought on to create artwork throughout the hotel but firstly to create a twelve meter mural for the prefunction ballroom as well as artwork for the Leaders Room and Executive Lounge. The mural, called 'Vitenam Vista', represented major Vitenamese sights from north to south. Created using individual pieces of wood then layered on top of one another, the final artwork had a 3D effect

With ornate wallpaper details, marble floors and glass chandeliers the Sheraton Grand needed artwork to reflect old world luxury with a modern twist. A huge amount of consultation and samples were created for the owner who had a particular vision in mind.

OCEAN VILLA RESORT - DANANG - VIETNAM

The Ocean Villa project was an existing resort with a new extension. Hay Hay was asked to create artwork for the entrance lobby, restaurant, spa corridors and conference area. With a clean white and wood palette, Hay Hay introduced colour and vibrance to the walls with turquoise and blues to match the surrounding waters. Local woven products were integrated into the modern abstract artwork and lighting was used to enhance the artwork in the larger areas.

This was a medium sized project that we were able to have a lot of fun with. We were allowed a pretty free range when it came to artistic license and the final products really accentuated the new space.

M GALLERY - HOI AN - VIETNAM

Situated in Hoi An just outside of a World Unesco Heritage Site the Hotel Royal Hoi An offers 187 luxurious rooms and suites conveying the fascinating love story of Sotaro and Wakaku. A story of a Japanese merchant who marries a Vietnamese Princess. The story inspired the artwork throughout the hotel along with M Gallery's sophisticated decor and local artistic brand. Local materials and artists were used to create artwork that was authentic and historic with extra attention on texture and materials.

Room artwork was created using hundreds of local black and white photographs to create a framed montage of local imagery, entwined with old world patterns and historic textures. This was one of Hay Hay's first projects and pieces created for this project remain some of our favorites.
