ACCESSIBLE ELEGANCE, COMFORT FOR PEOPLE

Bathroom is not only and exclusively shaped as a place of sanitation, but, is often characterized as an expression of people personality, in order to meet the needs of **comfort and safety**.

Goman is increasingly conscious of the qualities required by a **real person, not any more ideal one**. The spent of time for people, being them on welfare or having temporary/permanent difficulties, needs products and collections that always guarantee elegance and accessibility, in respect of individuals and regulations.

Goman, the design for people.

I.D.E.A.S. FOR PEOPLE

Innovation: *the inspiration for a continuous research.*

Design: *the driver for constant innovation.*

Elegance: *main issue to development projects and products.*

Accessibility: *as base of any inclusive projects.*

Safety: *as base to protect people and users.*

- *laws for safety are not synonymous of unpleasantness*
- *design and elegance for a comfortable life*
- *from home life to places of hospitality*

GOMAN. SINCE 1999.

The attention **to the design, to the person and the quality of all articles** are the result of many years of experience in the field of bathroom safety. Goman has always stood out for creativity and search for new solutions and visions for the contemporary; this has been supported by various awards for the **Flight wash basin** and the development of the recent **Leonardo, Raffaello and Giotto collections**. Goman wants always to be a pioneer in the production of Italian products for comfort at reasonable cost, without forgetting **quality and functionality**.

DESIGN FOR BATHROOM

100%
MADE IN
ITALY

ATMOSPHERES

THE TRANSFORMABLE BATHROOM

Today the bathroom meets new style of life, satisfying, with interior design and decorations, the various style directions. Goman proposes **different possible solutions according to different requirements**, which may be the answer to different atmospheres. These are also suggestions of modernization for those who want to re-build up the bathroom, and, for that, it has been taken into consideration eventual typical conformations of bathrooms of small and medium dimensions.

Once more Goman wins the challenge in finding more comfortable and safer solutions even in small bathrooms.

Therefore solutions for all needs.

REAL SPACES SMALL SPACES

Bathroom must respond to **specific functional requirements**. With some additional ideas, even a small bathroom can turn into a cosy, perfectly organized place. When the restructuring of small spaces is required, **it is always possible to set up a bathroom full and warm, pleasant and comfortable.**

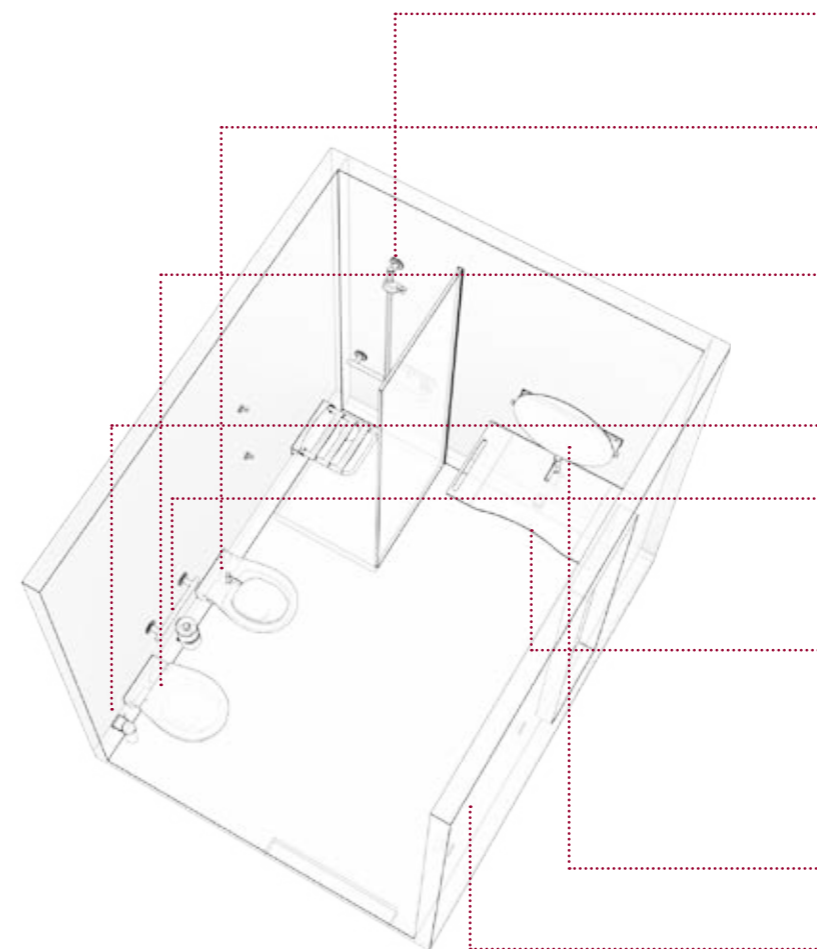

MINIMAL WHITE

The use of warm white colour, matched with pastel, gives character to the modern environment, emphasizing the simplicity of essential forms, being as well contemporary. This combination bring to the environment elegance, brightness, sense of cleanliness and feeling of more space and airy; it is therefore especially ideal for baths of small dimensions, giving the illusion of greater extension.

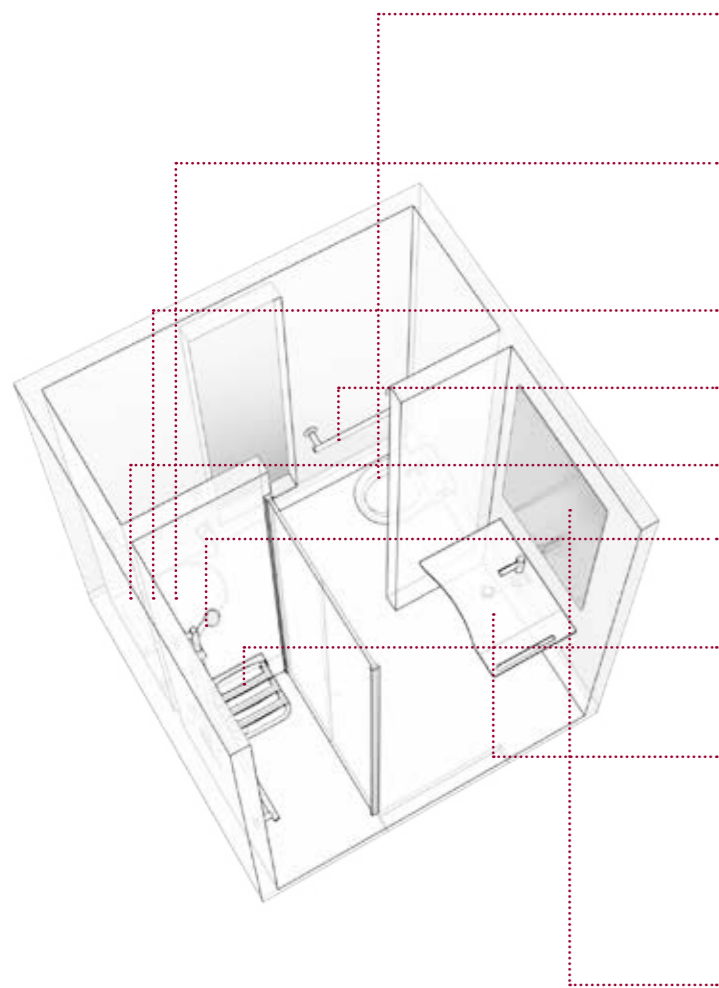

SERIES RAFFAELLO

CONTEMPORARY RADICAL

The walls with effect "corten" become the real protagonists of the house, appreciated for their characteristics, being capable of highlight any accessory or mobile furniture. With some changes, and combining wood and cement, you can get great results, creating pleasant contrasts between old and new. These materials, combined together, are the elements that mostly meet the industrial language, precisely because normally are intended to be use other than residential places.

SERIES LEONARDO
Complete series of
different articles
and furnishing, in
INOX or RAL colours.

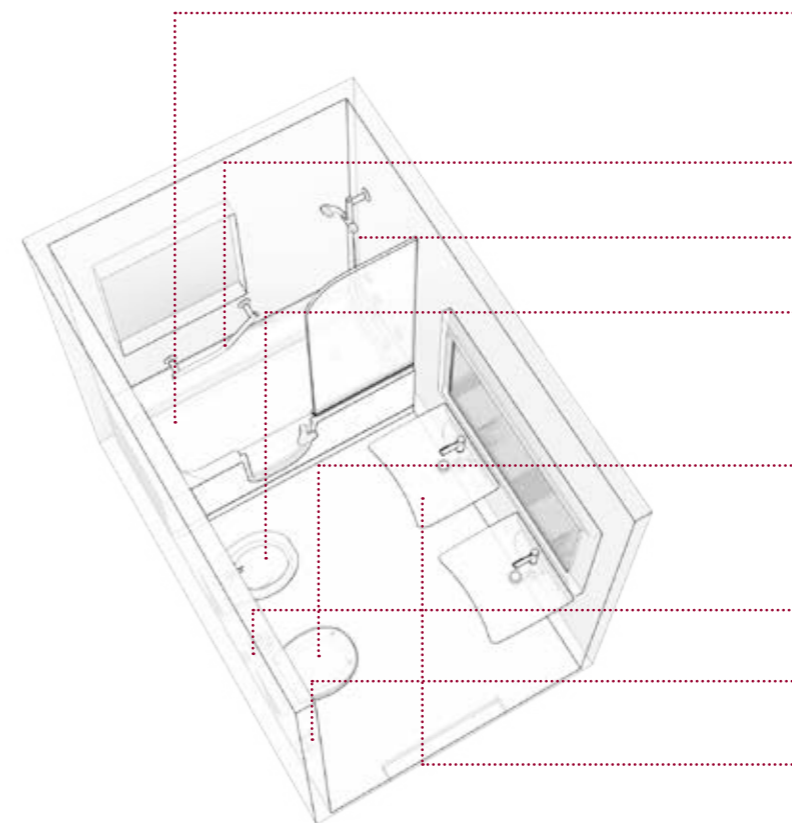

CLASSICAL CHIC

A bathroom often proudly shows the passed time with its small cracks, traces of paint peeling the wood and imperfections. They are precious details often to be preserved and even to be shown. The white, in all its natural gradations and shades, is ideal to match colours tending to pastel like dove, grey, light grey, beige, green sage or a delicate lavender lilac. Inside that finds ideal place the shower/bath-tube, to be used by everybody, without limit of age, from children or adult people.

SERIES OPEN

Complete series of sanitary: washbasin with concave front edge, lavatory bowls, bidet, wall hung or floor monoblocks.

LOUNGE SPA

This area represents the spatial space for functional requirement and a great place for relax. Time, age, and nature meet them self to generate an elegant and comfortable environment.

The stone and wood materials are typical indications of wellbeing and water can be the connection for body care and peace. To escape from the daily life or the time devoted by of elderly people it often requires roomy and shining environments to increase the home wellness. **The Giotto Series** helps to give the impression to be in a more relaxing atmosphere and in a relaxing environment.

Safety accessories **SERIES GIOTTO**

GIOTTO

FIXED SAFETY HANDLE
Safety handle with
towel holder, mild steel,
zinc plated, 60 cm.

AGE OF WISDOM

The constant increasing of people in age of life (being now close to the fourth age), requires today to build up environments and create articles always less "hospital" looking. Series Giotto has been developed to meet the need of everybody in respecting the dignity of people.

A NEW BEGINNING

The painter Giotto has been the beginner for a new vision of the space and empiric prospective, the Goman **Series Giotto is the forerunner of a new vision for bathroom safety accessories.** Series Giotto intentionally hints at the walking stick; it can therefore be used in different manners, as support or catching aid. The intentional attention devoted to the details, and the implement of the towel holder, move all components of this series from the "auxiliary" side to the "accessory" one, as usually found in a bathroom environment. Goman, once more meet the aim to have a **Design for All.**

SERIES GIOTTO
Safety handle with
towel holder, mild steel,
zinc plated, 60 cm.

HOME PLACES AND HEALTH ENVIRONMENTS

The typical components of this series, like the safety handles, the tilting mirror, the shower seat, are studied on purpose to be adapted either in home environments and for buildings with equipments for health or fitness. The design and the specific technical solutions, of this series is a real forerunner for everybody. The series Giotto is the natural result of years of constant development of Goman in order to have a pleasant and comfortable bathroom place.

SHOWER SEAT
Folding shower seat,
with seat made of
Corian® Dupont.

SLIDING SHOWER
Vertical bar with shower
slider and support ring
positioned as desired,
combine with the taps or
with the own comfort.

Francesco Rodighiero

INNATE EVOLUTION

This series is the innate evolution of the Goman design; the painter Raffaello is known by the harmony of his works, so Goman with this series has done in order that the attention to the details can meet harmony, perfection and simplicity. It has been developed to meet all people requirements, even those most exigent, without forgetting **to be aligned to the most restricted standard.** The selection of the chromed or gilt pieces, the specifically studied technical measures, can fit without difficulty to the traditional projects all over the world. The possibility to meet new and traditional styles is its main characteristic.

SERIES RAFFAELLO
Safety handle, matte white, and brilliant mild steel, zinc plated, COD:30.

R&S Goman

LEONARDO

CONVENIENT AND VERSATILE

Leonardo da Vinci is known in the world for his versatility; the Goman Series Leonardo is characterized by the versatility of the finishing touches and colours, **meeting as well a first-rate relationship quality/price**. It has been specifically developed to be suitable for any environment, from hospitals, to private houses, or restaurants, hotels. So that it is the Goman worldwide bestseller. This is the reason why the Leonardo series is once more the stage of the constant increase of the availability of Goman range.

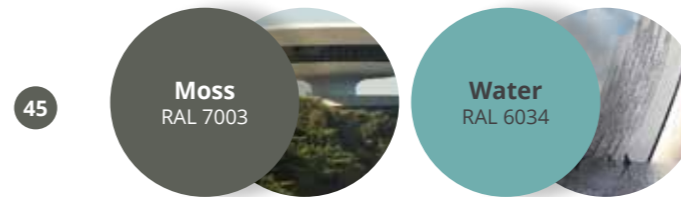

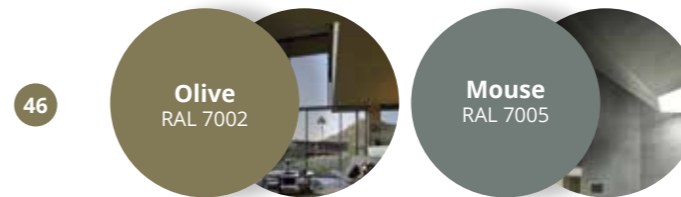

WIDE SERIES

Series Leonardo, in addition to be the most completed, is the richest series of different finishings and colours to be adapted to any ongoing architectural developments. Versatility is in fact its core characteristic.

SERIES LEONARDO
Safety handle in mild steel,
zinc plated, cm 60.

ARCHITECTURE

COLLECTION AND FINISHING

The **Goman series** are available on request as well on “architectural colours”, a wide series of different lasting colours of Goman guaranteed quality with “**QUALICOAT**” certification, plus a great variety of finishing, **selected by international architects**. This new series represents a new, natural and human architectural wave. The production is eco-compatible, lasting to variations of humidity and strong **UV radiations**. The look is stable over the time; you may build up your bathroom without problems. The **two colours finishing** allows to accurate and distinguished combining, valid for any architectural environment.

FLIGHT. UNIVERSAL.

Made in a single sheet of special methacrylate resin, this washbasin has been developed to respond to the needs of all people, **from the children to the most exigent person**. It has been thought to be the symbol of design for accessibility, completely non-discriminatory and characterized by sinuous and elegant forms. **It has already been installed in new and modern assistance centres, in hotels and in airports**. Due to its essentiality, it is accompanied by other Goman articles, from sanitary to all accessories, to complete the decor and to make rooms comfortable and functional.
