Introducing our new Imperio line of benchtops. A sustainable, healthy alternative to stone benchtops.

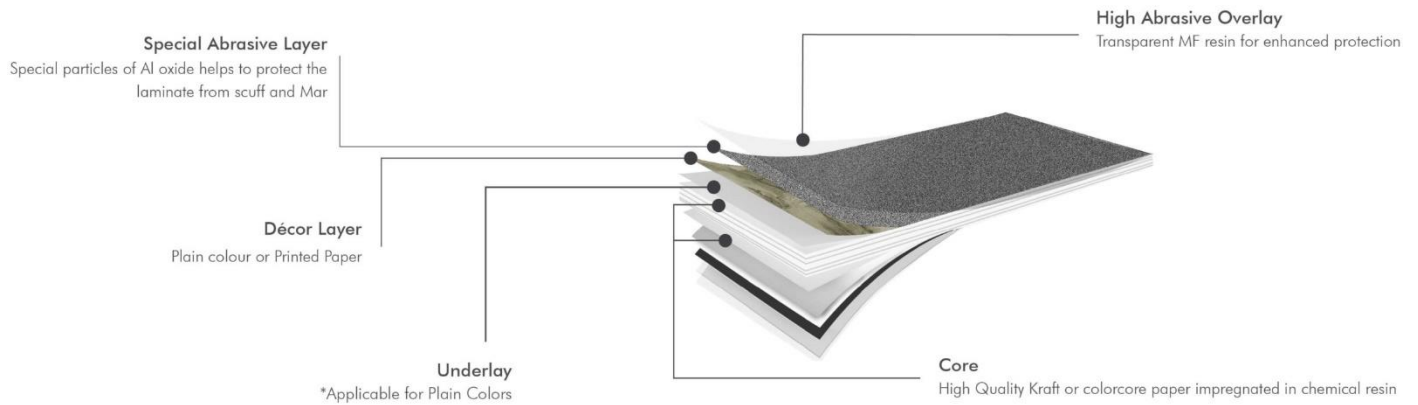

Imperio benchtops are made using a technology that deposits aluminium oxide particles in overlay layers for superior durability, print fidelity, colour saturation and scratch, scuff and mark resistance. Available in a variety of unique designs for diverse applications, including benchtops, cabinets, boardroom table tops, and waterfalls.

 <p>LIMITLESS DESIGN POSSIBILITIES</p>	 <p>HIGH SCRATCH RESISTANCE</p>	 <p>SATIN SMOOTH TOUCH</p>	 <p>HAUTE MATTE</p>
 <p>FINGERPRINT RESISTANT</p>	 <p>ANTI BACTERIAL</p>	 <p>ANTI FUNGAL</p>	 <p>STAIN RESISTANCE</p>
 <p>HIGH IMPACT RESISTANCE</p>	 <p>HEAT RESISTANT UP TO 220°C</p>	 <p>2X ABRASION RESISTANCE</p>	 <p>HIGH MOISTURE RESISTANCE</p>

[BEST USED FOR]

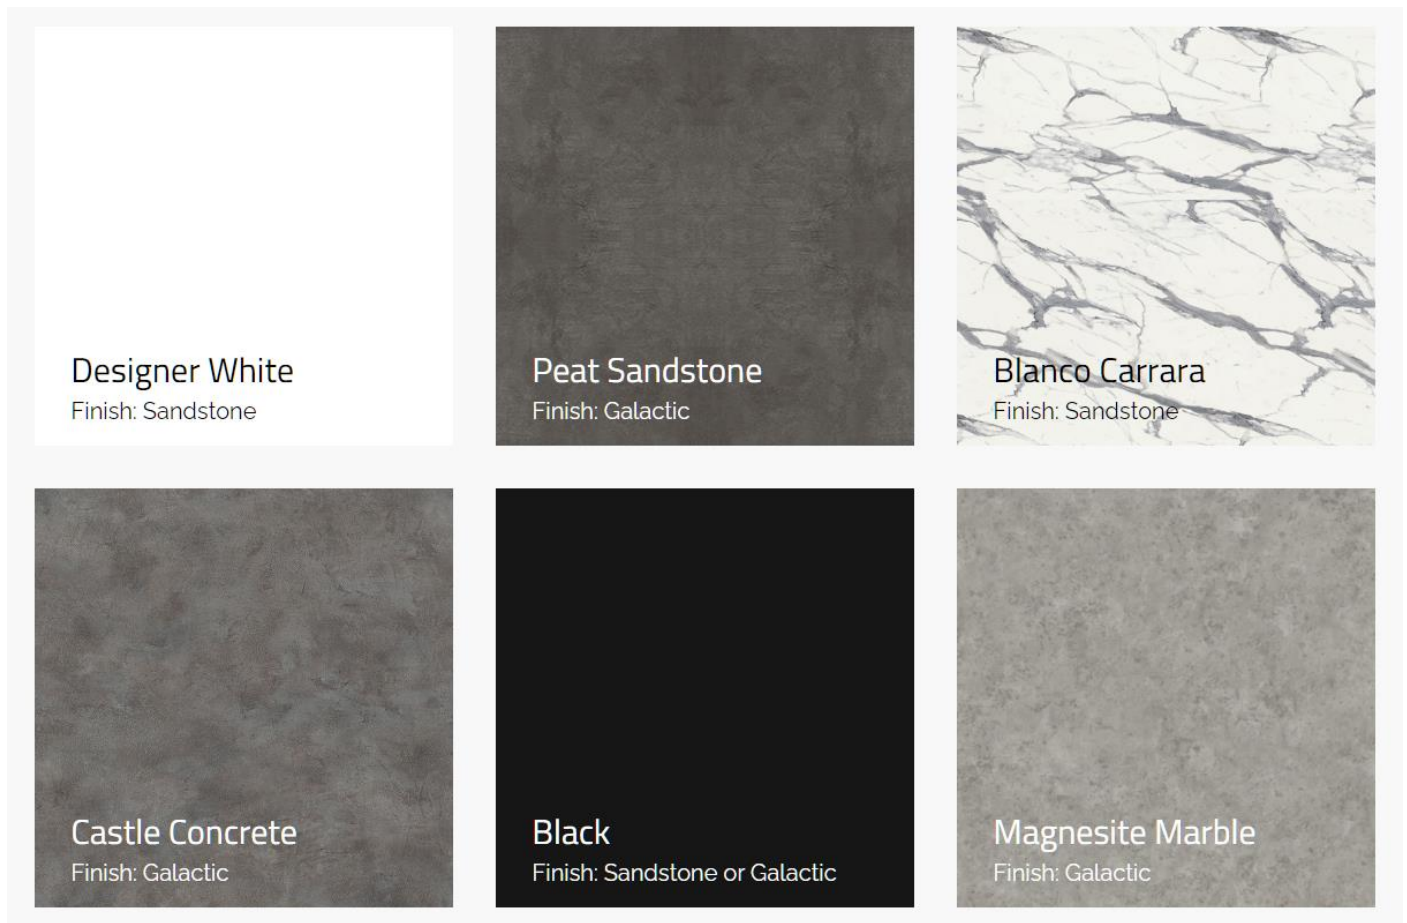

Imperio Benchtops are ...

A viable replacement for stone benchtops. Built using a novel technique consisting of layering many thin layers of material coated with resin, the end result is a very strong and solid feeling material with rigidity similar to carbon fibre. Imperio benchtops are heat resistant up to 220°C.

[SOLID CORE COLOURS]

Imperio Colour Options

Imperio Product Specifications

Finishes

Available in two finishes, Sandstone (left) and Galactic (right), each give a unique feel when touched. See our magnified pictures.

Sheet Sizes

All of our Solid Core panels come in sheet sizes of 3660 x 1550 mm.

Sheet Thickness

All sheets are available in a thickness of 12 mm but the black is also available in 20 mm with the Galactic finish.

Imperio Benchtops

Solid Core benchtops have some big advantages over stone:

- Heat resistant up to 220°C
- Durable and scratch resistant
- Lighter weight
- Not contaminated with Silica
- Much easier to machine and work with
- Lower material cost than Stone and Acrylic products
- Superior thermal conductivity (feels warmer to touch than stone)

This new product looks and feels a lot more like stone while being much easier to machine. Introduced to solve the aforementioned issues it is particularly notable for being non toxic and a safe alternative to silica infused stone.

[TRADE PARTNERS]

We deliver to most of New Zealand using our network of outlets and trade partners

Benches are securely packed and sent to you if delivery is required. Otherwise they can be picked up at any of our branches. We have branches and delivery services across New Zealand. Just click on the link below to go to our interactive locations and benchtop delivery map.
