MOSS WALL ART

SUSTAINABLE COMMERCIAL &
RESIDENTIAL ART

ABOUT

Our Moss Wall Art is a unique blend of nature and luxury that embodies serenity, natural appeal and elegance to elevate commercial and residential spaces. Whether used in work spaces to increase cognition and productivity or home interiors to add a natural and calm ambience, our moss walls are a versatile and entrancing design that truly incorporates biophilia and brings people closer to nature.

Every Moss Wall Art is handmade from high-quality moss which has been harvested sustainably and preserved with natural ingredients that replace the water in the cell structure. They're completely maintenance free and last for 8-10 years if placed in a space where it can't be tampered with.

Each moss piece we create is perfectly unique, looking and feeling alive with soft textures, projection, and vibrant colours. We offer customisations on all designs and love working with clients to create completely personalised art and branding that can be incorporated with 3D elements and LED lighting.

All of our frames are made from reclaimed wood and are available in various colours and stains to suit your interior and home design.

SCOPE OF USE

- Delivered within 4 weeks.
- For indoor use only. Keep out of direct sunlight. Bright indirect light is fine.
- Does not require water or fertiliser.
- We are able to create all designs in any size.

CARE & MAINTENANCE

Each Moss Wall Art design is completely maintenance free and flourishes without sunlight or water. We strongly recommend you keep the Moss Art indoors only, bright indirect is fine but keep out of sunlight.

ASSEMBLY & INSTALLATION

Our Moss Walls are designed and manufactured using lightweight panels that simply screw onto the wall in your premises for immediate visual impact. Large scale Moss Walls are usually created in sections for convenience and shipping purposes.

CUSTOMISATION

We love working with clients to create a unique and personalised branding to elevate their interior design. These can be incorporated with 3D elements and LED lighting and can come in various sizes, colours and arrangements. Please get in contact for more info.

SUSTAINABILITY

As our Moss Wall Art is sustainably harvested and preserved with natural ingredients, they have a significantly lower carbon footprint when compared to both live and artificial plants. Each design is constructed using 100% natural materials, does not require water or soil, and can last 8-10 years. Our Moss Art provides the creativity of nature, the convenience of artificial plants and the benefits of live plants.

BENEFITS

- **Low Maintenance:** Requires minimal upkeep compared to live plants, with no need for watering, fertilising, or pruning.
- **Longevity:** Can last for many years with proper care, providing enduring beauty without the need for frequent replacements.
- **Natural Aesthetics:** Brings the beauty of nature indoors, adding a touch of greenery and tranquillity to any space, and can be customised to fit various design styles.
- **Air Purification:** Like live plants, moss absorbs pollutants and helps improve indoor air quality, reducing toxins and allergens in the air.
- **Sound Absorption:** Has acoustic properties that help absorb sound, making it suitable for spaces where noise reduction is desired, such as offices, conference rooms, or reception areas.
- **Space Saving:** Doesn't take up floor space like traditional potted plants and can be installed on walls, ceilings, or used as room dividers, maximising space utilisation.
- **Versatility:** Can be used in various settings, including homes, offices, restaurants, hotels, and retail spaces, enhancing the ambiance and visual appeal of the environment.
- **Customisation:** Available in different colours, textures, and arrangements, allowing for personalised designs to suit individual preferences and specific design requirements for interior design.
- **Sustainability:** Each design is made with sustainably harvested moss and preserved with all natural ingredients, making it an eco-friendly choice for environmentally conscious individuals and businesses.
- **Biophilic Design:** Incorporates elements of nature into interior spaces, promoting well-being, reducing stress, and increasing productivity and creativity.
- **No Soil Requirement:** Doesn't require soil to grow, eliminating the need for soil extraction and reducing environmental disturbance.
- **Unique Artistic Expression:** Offers a unique form of artistic expression that combines natural materials with creative design techniques, making each installation one-of-a-kind.
