POLISHED CONCRETE

POLISHED CONCRETE

Finish: Polished Concrete, Polished concrete has been beloved by homeowners, architects & designers for years due to its versatility, strength and timeless design that is likened to both natural stone and terrazzo finishes

At Raw Surfaces, we only install Genuine Polished Concrete. which is a soft, smooth, luxurious sustainable Surface that does not scratch, discolour or wear like classic coated forms of "polished concrete" or non-genuine imitations that also have an entirely different texture

Colours: We do not or can not change the colour of your concrete, or aggregate-specific colours may be chosen where the concrete is being poured specifically for your project.

Aggregate levels: Full 90-100% (terrazzo) - Random 10-90% (urban) - nil 0-10% (burnished)

Texture: smooth glass-like texture that feels soft.

Gloss levels: low sheen - semigloss - high gloss

Suitability: Internal - External Uses only

Warranty: 10 years T&c apply.

HONED & PAVILLION FINISH

HONED CONCRETE

EXTERNAL POLISHED CONCRETE

Finish: Honed or pavilion finish is the external equivalent of "polished concrete" without the high slip factor, making it perfect for outdoor spaces.

Raw Surface Honed and pavilion finishes do not use anti-slip additives such as sand to achieve slip resistance. This sand typically wears away in 4 months to 2 years, making the surface exceptionally hard to clean. Our honed and pavilion finishes utilise the texture of your concrete to create a long-lasting textured external surface.

Colours: We do not or can not change the colour of your concrete, or aggregate-specific colours may be chosen where the concrete is being poured specifically for your project.

Textures and gloss levels: Honed concrete minor texture - Pavillion Finish high texture.
Available in low sheen

Suitability: External Uses only

Warranty: 4 years T&c apply.
