

SIMES

C O N C E P T B O O K 2 0 2 3 - 2 0 2 4

SIMES propone un'ampia gamma di corpi illuminanti per esterno, qui riassunte in un concept book al servizio del progettista. La luce, anche nell'outdoor, diventa una luce di qualità, studiata per donare benessere e accompagnare il vivere quotidiano attraverso elevate performance illuminotecniche, ottiche confortevoli ed affidabilità nel tempo. Le forme si semplificano esprimendo eleganza, robustezza e leggerezza, integrandosi nella scena da illuminare in modo discreto e armonioso perché la protagonista rimane la luce. Un'impalpabile leggerezza dove serve e come serve, per emozionare nel tempo.

SIMES offers a wide range of lighting solutions for outdoors, here summarized in a concept book at the disposal of the designer. The light, also in the outdoor, becomes a quality light, designed to add well-being to the daily life, through high lighting performance, comfortable optics and reliability over time. The shapes get simplified, expressing elegance, strength and lightness, integrating into the scene to illuminate discreetly and harmoniously since the light remains protagonist. An untouchable lighting effect, placed where it is needed and how it is needed, to inspire over time.
