

Planning, Design, and Project Management

Welcome to Slate Construction.

We bring design and construction together under one roof, delivering intelligent, beautifully built spaces across the North Island. Our **design & build** approach ensures every project begins with understanding.

By collaborating early with our clients, designers, and architects, we create homes and commercial spaces that reflect your vision, meet your needs, and perform for the future.

With over 25 years of experience, we specialise in bespoke new homes, renovations, extensions, and commercial builds — each defined by quality craftsmanship, transparent pricing, and exceptional project delivery. From first sketch to final handover, our team manages every detail to make the process seamless and rewarding.

Based in **New Plymouth, Levin** and **Tauranga**, we proudly serve clients throughout Taranaki, Manawatū, Horowhenua, Kāpiti Coast, Wellington, Waikato, and beyond.

Let's create something brilliant together.

Slate

Our Integrated Approach.

We pride ourselves on delivering exceptional architectural construction solutions with complete transparency throughout your building journey. Our approach combines detailed planning, expert execution, and unwavering commitment to your vision and budget.

Our in-house team of architectural designers, consultants, and project managers work in seamless collaboration, providing you with a single point of contact throughout the entire process, ensuring:

- Preservation of Design Intent
- Efficient Project Management
- Streamlined Communication
- Consistent Quality Control

From Concept to Completion, Slate delivers a smooth and economical experience, balancing exceptional results with budget consciousness.

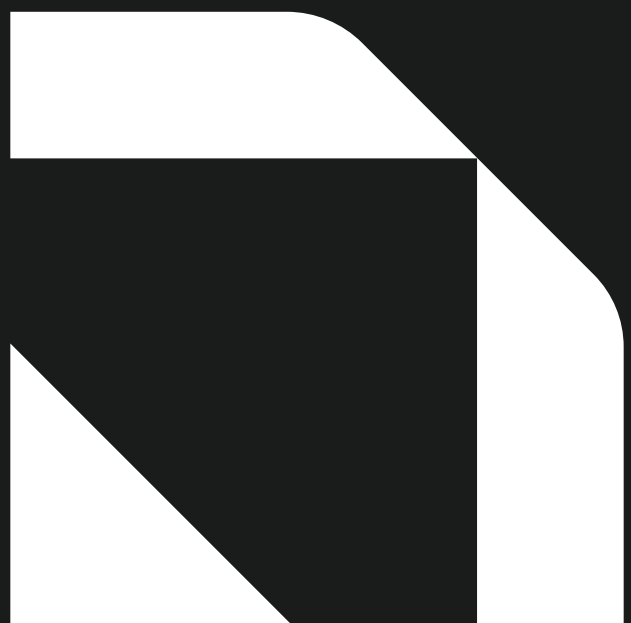

Project Experience & History.

Slate has been involved in residential and commercial construction for over 25 years. Initially operating from 1996 to May 2024 as Buildtech/BuildtechNZ, the company then rebranded to 'Slate – Architecture and Construction' to reflect a commercial merger with a renown architectural design practice, then known as 'fortyone ARCHITECTURE'.

As a construction management, general contractor and designer, working across a variety of projects, Slate has gained considerable experience in the following sectors and project types:

- Planning & Feasibility
- Design & Build
- Adapt & Reuse
- General Construction & Tendering
- Projects & Small Works
- Residential & Commercial

Some of our projects across these sectors include...

FARMLANDS FOODS COOL STORE FACILITY

Location: Bulls, Manawatu **Sector:** Industrial

Complete construction and project management of an advanced cool store facility for Farmlands Foods, integrating state-of-the-art climate control and storage systems, customised to meet rigorous industry specifications.

EXTENSION

Location: New Plymouth, Taranaki **Sector:** Residential

Delivered an extensive addition to a residential home in a high-wind zone.

HIGH-PERFORMANCE SUPERHOME

Location: Waikanae, Kapiti Coast **Sector:** Residential

Spearheaded the construction and project management of a high-performance, eco-efficient “superhome” in Waikanae, incorporating leading-edge sustainable building materials, energy-efficient systems, and forward-thinking deliver methodologies to set new standards for residential construction.

30-UNIT COMPLEX FOR ANNIE BRYDON LIFECARE

Location: Hawera, Taranaki **Sector:** Commercial

30-Unit Lifecare Complex for Annie Brydon, Hawera – Full construction of a high-quality, 30-unit aged care facility on Glover Road, designed to offer accessible and comfortable living spaces, integrating advanced safety and care provisions to support senior living standards.

COMMERCIAL EXTENSION & FITOUT FOR MONKEYTOE

Location: Normanby, Taranaki **Sector:** Commercial

Led full construction, extension, and fit-out services for Monkeytoe Group’s commercial offices and industrial buildings, enhancing operational efficiency and scalability.

RESIDENTIAL HOME DESIGN & CONSTRUCTION

Location: Taranaki, Manawatu, Horowhenua **Sector:** Residential

Successfully completed the design and construction of over 150 residential homes across Taranaki, Manawatu, Horowhenua, Kapiti Coast and Hawke’s Bay showcasing a long-standing commitment to quality craftsmanship, client satisfaction, and sustainable design practices over a span of nearly three decades and counting [1996-2024].

-

Our Process.

01 Project Planning and Establishment

Defines the project scope, objectives, stakeholders, and feasibility. Establishes a clear understanding of initial expectations and goals among all parties involved.

02 Design Intent, Site, and Value Analysis

Reviews design intention and construction methodologies, analyses site logistics, and employs value engineering techniques to optimise costs project value, costs and quality.

03 Architecture and Consultant Engagement

Full architectural design, engaging and managing of key consultants and engineers.

04 Specifications, Quantity Surveying, and Pricing

Identifies material specifications, conducts detailed quantity surveys, and formulates competitive pricing strategies to manage project costs effectively.

05 Contract Creation and Presentation

Creates and finalises project contract contracts and programmes to stakeholders, ensuring alignment with project goals.

Our Process Cont.

06 Mobilising and Preparation

Mobilises necessary resources, manpower, and equipment to the site. Establishes logistical frameworks to support efficient project execution.

07 Construction Management

Executes construction activities, oversees daily operations, and coordinates project teams to ensure adherence to schedules and quality standards.

08 Project Monitoring, Control, and Reporting

Monitors project progress, controls costs, manages quality assurance, and maintains adherence to timelines. Regularly reports updates to stakeholders to ensure transparency and accountability.

09 Closeout, Audit, and Handover

Conducts final inspections, audits and obtains compliance with regulatory requirements, and formally transfers the completed project to the client. Provides all documentation, certifications and guarantees as part of the handover process.
