## 7 YEARS OF DELIVERING QUALITY RENDERS

STUDIO 5253 is a leading 3D Architectural Visualisation studio producing architectural presentation material for property projects across Australia.

We cater to various projects, where size doesn't matter. Delivering quality output in standard & even express time frames is something with hold in high regard.

Our Studios are located in Sydney, Australia and Auckland, New Zealand where we assist major Property Developers, Architects, Engineers & Governments in visualizing their dreams of the future and realizing them to the community. Having done a wide array of 3D project visualisations over the years, it is highly likely you may have come across our work that's been transfigured into real life developed projects around you.

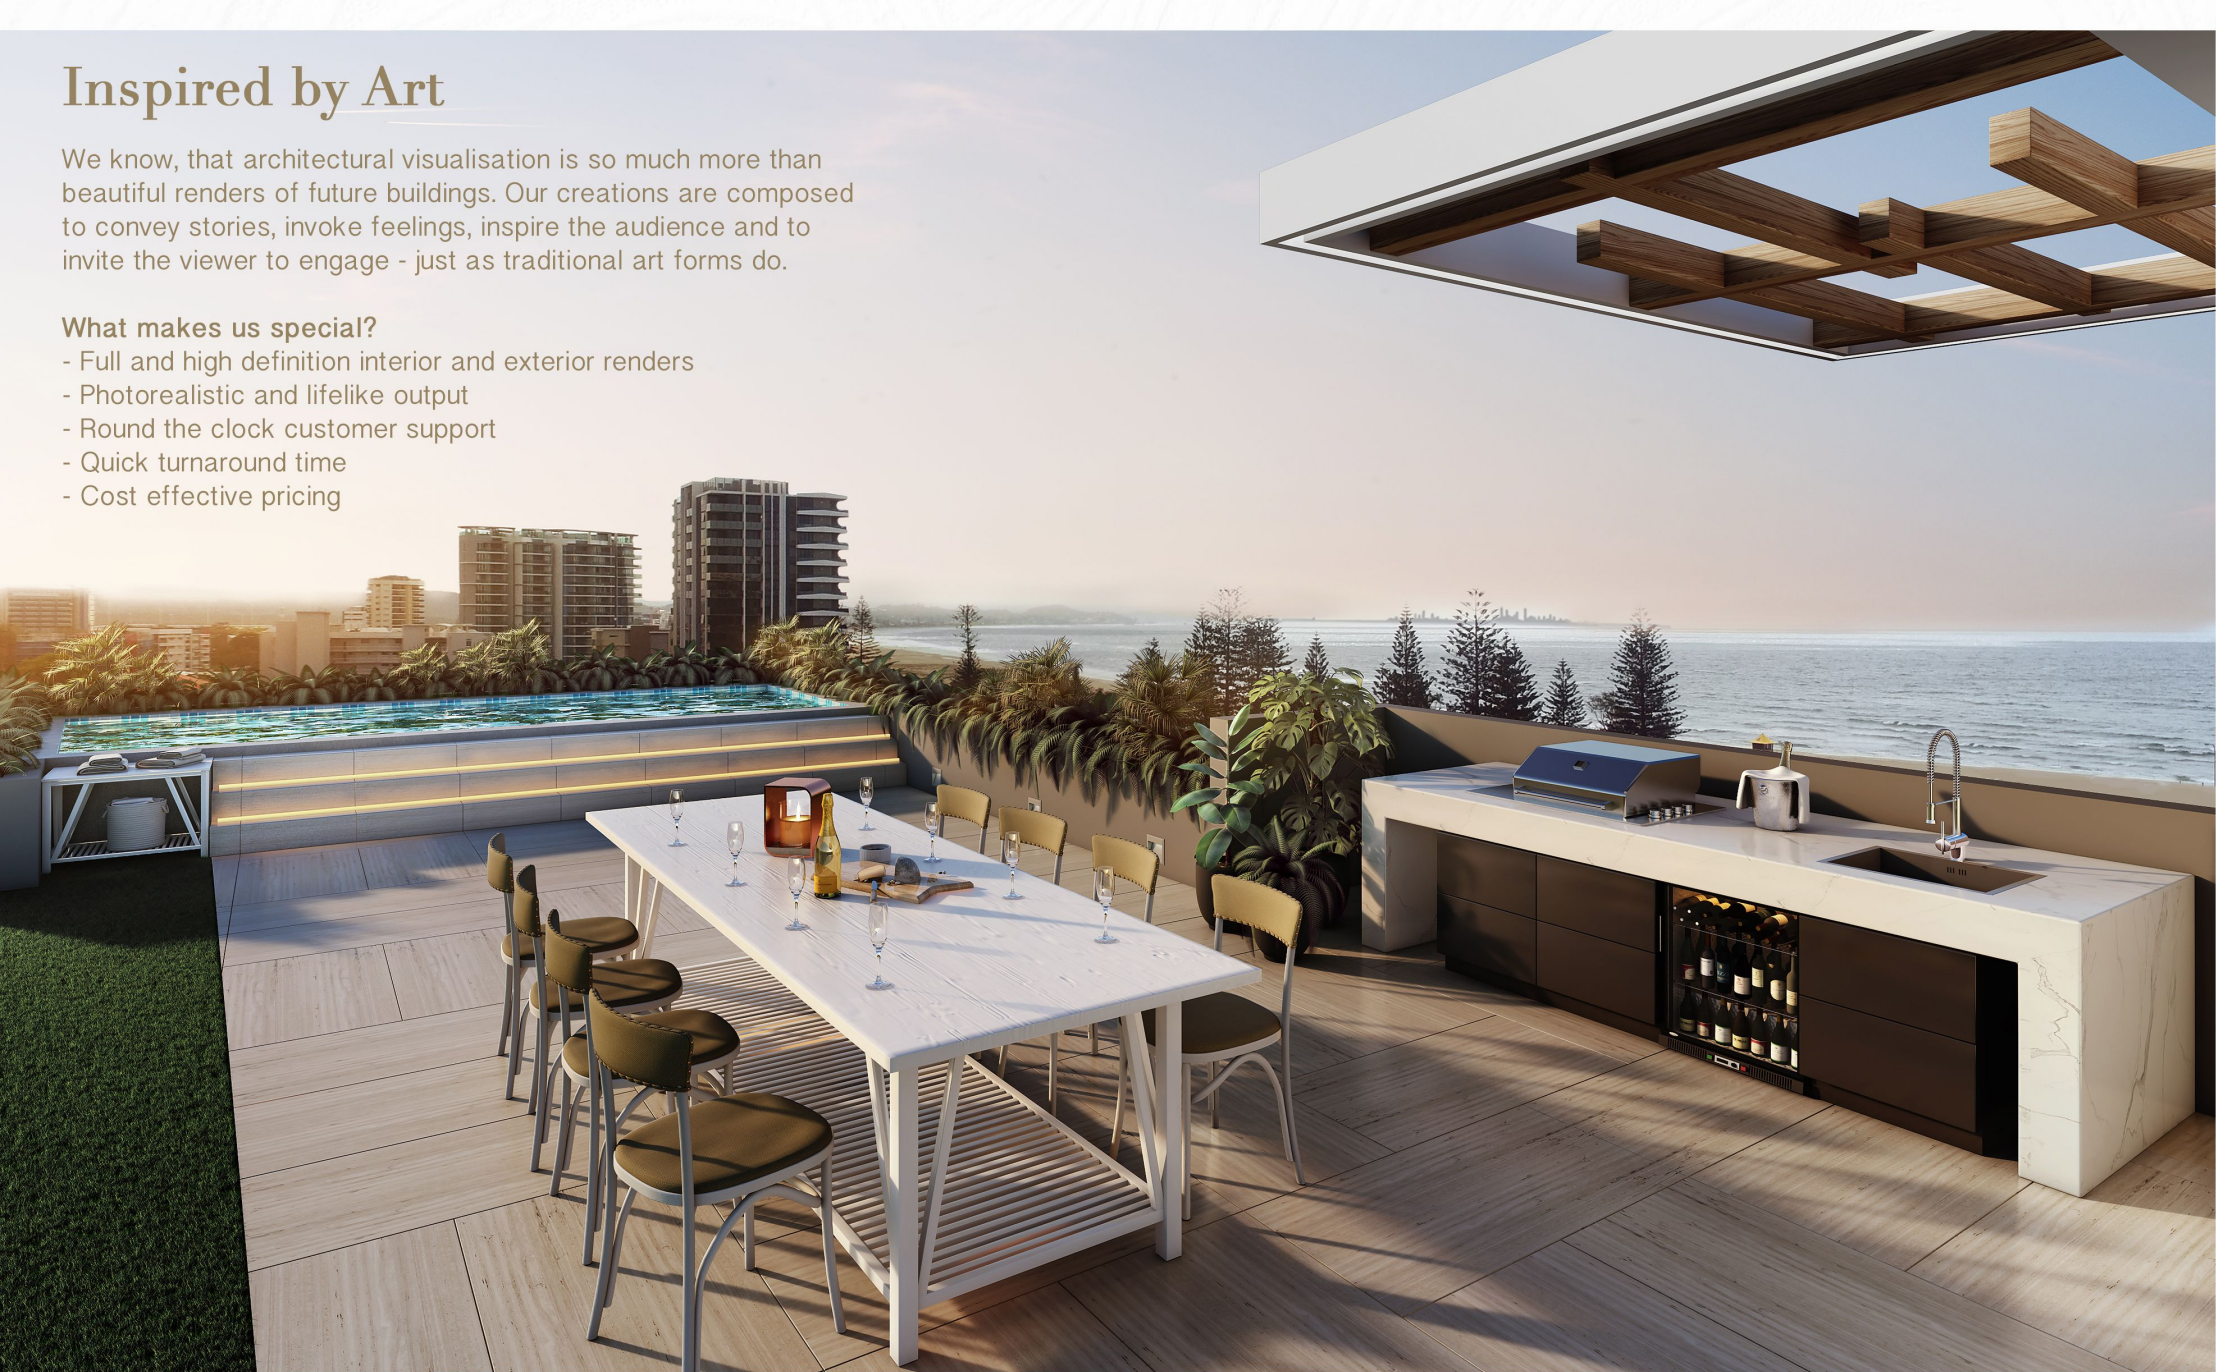

# Inspired by Art

We know, that architectural visualisation is so much more than beautiful renders of future buildings. Our creations are composed to convey stories, invoke feelings, inspire the audience and to invite the viewer to engage - just as traditional art forms do.

## What makes us special?

- Full and high definition interior and exterior renders
- Photorealistic and lifelike output
- Round the clock customer support
- Quick turnaround time
- Cost effective pricing

## We're Visual Storytellers

We see our role as design communication professionals with strong architecture background, tasked with clearly translating conceptual architectural designs into captivating and engaging imagery. Show your clients how stunning your project is meant to be. At Studio 5253, our creative team designs unforgettable visual representations that impacts the senses and provide an intuitive insight of an idea. Our skills and craftsmanship are powered and enhanced by high-tech solutions. Not only do we understand and utilize standard industry programs and technologies, but we have also develop innovative solutions to perfect our production pipeline.

Our 3D visualisation services include:

- 3D Renders
- 3D Walkthroughs
- Drone Photography and Montages
- Photos & Videos
- Physical Models
- Virtual Reality Tours
- Property Marketing

## 3D Renders

We build elegant, aesthetically pleasing and exceptionally beautiful 3D renders, delivering on all phases of 3D Architectural Rendering & Visualisation. From town planning 3D renders, DA photomontages, through to high-end marketing 3D renders and 3D floor plans.

With our 360 degree view services, you can have a complete virtual tour of the project to explore the whole environment. You can pan, rotate and even zoom in according to your wishes and navigate the entire scene as per your liking. Furthermore, 360 degree view technology will help you to relate to the digitized images, which will enable you to focus on the areas you want to visualise.

## 3D Walkthroughs

Step into the world of 3D walkthroughs where finer details come together to create a mesmerizing and real-like experience. We create and redefine perceptions using the art of 3D walkthroughs, giving you a lifetime experience where your ideas, imaginations & dreams are turned into motion. Our extremely efficient team carries extensive years of experience with unparalleled expertise thus enabling us to deliver the finest 3D video walkthrough services to our clients.

# Drone Photography & Montages

Elevate your listing with a higher perspective. Excite buyers by giving them an amazing bird's eye view of the property. We help you in capturing breathtaking aerial imagery and virtually animate and showcase the development in context to the surroundings, showcasing the best your property has to offer, or have us collect, inspect, and analyze critical data for your enterprise.

## Photos & Videos

The allure of photos and videos with the capability to capture the space with our extensive equipment's delivers cost-effective and high-quality results. Producing compelling pictures and videos that will leave you wanting more!

# Physical Models

We offer laser cut and 3D printed models for council submissions, display suite, trade shows and marketing. Using state-of-the-art 3D printing, we turn your ideas into attention grabbing models. Standing in front of a well-crafted model impresses clients and helps get results. Studio 5253 consists of advanced infrastructure and a team of creative 3D modelers for offering custom 3D modeling services to clients from diverse industry sectors.

# Space VR 5253

Simulating a definitive real-time interactive VR experience to explore and live architecture. Dive into a customized tour through the house of your dreams before it's even built. Offering 360 panoramas and swapping of finishes and materials to suit buyer needs. Experience a new level of presence by bringing physically realistic visuals, sound, and simulated environments to virtual reality. Visualizing every aspect of the property immersively.
