

TANOVA

Waste & Laundry Systems

Tanova Designer Series 2 Now with push to open, soft close

Tanova Designer Series 2 is built on Simlead premium slimline drawers which means truly innovative 'everactive' push to open technology. Push any point on the front panel to open the drawer. These models are designed with convenience in mind. Tanova Designer series 2 features a solid-steel powder coated frame with front-fixing points to provide support for the drawer front allowing for durability and strength. With models for both the kitchen and laundry in a range of configurations, there's a Tanova Designer Series 2 model to suit any kitchen project.

Tanova Designer Series For waste & laundry

Tanova Designer Series for waste and laundry is built on 60kg load capacity, super smooth running over extension drawer slides. These runners over-extend beyond the edge of the bench top allowing for easy removal of rear buckets. The system also features a fully integrated cushioning system for consistently soft, quiet closing. The streamline design helps reduce grime build up and allows for easier cleaning.

Along with all these great features, the laundry system also features ventilated sides on the plastic buckets to aid airflow and reduce mustiness, as well as sturdy built in handles to allow for easy carriage.
