## Introducing Touch Handles

Cabinet Handles

*the finishing touch*

# Welcome to Touch Handles

Back in 1996, founder John Steen began hand-making cast iron furniture ring pulls servicing the furniture industry under the Dorset name. By 2005 the furniture industry had mostly been moved offshore directing the companies focus to the kitchen & cabinetmaking industries, supplying quality cabinetry handles for the trade.

Fast forward to 2019, with popularity continuing to grow we set out to further assist the design industry. With a new name for our cabinet handle division (Touch Handles), a renewed vision, a new design inspired range yet our same values, we set out to make quality, design inspired handles more accessible and the selection process a little easier for designers, renovators & homeowners alike.

Touch Handles, the finishing touch.

HANDLES

# LESS THAN 3%

Less than 3% of all products are sourced directly from China with the aim of 0%.

# 30%

30% of our products are sourced from within Australia. We support our fellow Australians where we can & as much as we can.

## A Secure, Sustainable & Ethical Supply Chain

Over the last 3 to 5 years we have put a considerable focus on our supply chain & supply chain management to ensure all products we supply are sustainable & ethical. Part of this process has been resourcing all products & components away from China, and increasing our support of Australian manufacturers.

What does that mean for me?

You can have the confidence of a robust & sturdy supply chain. You can have peace of mind with your customers quality products and our ability to offer great quality, innovative concepts at competitive pricing.
