Designed & Operated

a toilet  
for

small  
places

# mini cyclone

**Mini Cyclone:  
Sometimes  
'less is more'**

**Finally – a toilet suite  
that is designed with  
the more compact  
bathroom/ ensuite/  
guest WC in mind.**

With its short projection this compact back to wall toilet avoids the annoying problem of a swinging door intruding on the user's space.

A practical, space saving design.

A valuable asset in homes where space is at a premium.

A compact design that despite its size has not compromised on comfort or quality

**The Mini Cyclone**

Small and compact but no less powerful than the standard sized tornado it can still 'pack a punch' when it comes to flushing action.

With the all new smaller ledge rimless design it will flush all your worries away!

Rimless Flush

Full Sweep Action Flush

Soft Close Lid

Non Marking Surface

4 Star Water Rating

MINI CYCLONE-GW  
Gloss White

MINI CYCLONE-GB  
Gloss Black

MINI CYCLONE-MB
