Designing Atmosphere Outdoors

Heatsail lets you savour every moment outdoors, with sculptural design, refined infrared warmth, and ambient lighting. Their collections create atmosphere, comfort, and connection long after the sun goes down.

Crafted in Belgium with a focus on form and function, Heatsail seamlessly integrates light, heat, and cooling into elegant, all-season solutions. Every piece is designed for energy efficiency and long-term performance, enhancing the way you live outdoors.

At the heart of their innovation is far-infrared technology — a natural warmth that gently heats you and surrounding surfaces, creating comfort without heating the air. A smarter, more sustainable way to enjoy the outdoors year-round.
