We don't just deliver products, we CREATE them

The epitome of class

As in history and the present, and as will always be in the future, columns are the definition of grandeur. Many businesses and homeowners are realizing the beauty a simple column can add to an exterior.

There is no piece of architectural detail that will add more value to a home than a decorative column.

Simple to install and inexpensive compared to the value added to your property, architectural pillars will draw attention by any passerby.

Notice how the top third of the columns are tapered to give that soft appearance.

As shown in this project, a combination of teamwork between the client and Accumen has produced these wonderfully crafted columns that are in proportion with the surrounding structure.

Every effort has been made to ensure accuracy in this publication, but Accumen Ltd accepts no liability for any errors of fact or opinion expressed.
