## To cap it all off...

**W**e at Accumen have no idea how many miles of Copings (Fence Caps) and Pier Caps (Post Caps) we have manufactured over the years for plastered block, brick or lightweight panel fences.

We never fail to be impressed by the huge difference it makes to the appearance and ambience, let alone value it adds to any property.

As you can see in the before photo, prior to the appearance being rescued, the eye and body is not drawn towards the fence.

**A**s shown in the rescued photo, this wonderful classic design immediately creates interest in what is behind the wall.

**F**or a relatively small extra cost over and above the construction cost of the fence, adding the copings and pier caps will never let this fence become stale.
