A MAJESTIC CORNICE MOULDING

- **Robust**
- **Secure**
- **Exceptional**

"A person who asks a question may be a fool for five minutes, but a person who never asks a question may be a fool for ever"

The entrance to this home would not possess the same charming allure if it wasn't for the exquisite curved cornice moulding placed on top of the two square fluted columns with capitals and bases.

It never ceases to amaze us here at **Accumen** how rounds or curves soften a building. The curved cornice detail with dentils (small square blocks) creates a memorable impression.

- **Pre-plastered lightweight mouldings**

- **TidyUp® adhesive**
- **bBOLD® creations**

We don't just deliver products, we CREATE them

Accumen is proud to manufacture such beautiful mouldings and would like to thank the client for having such an excellent eye for detail.

Acknowledgement should also go to the very professional workmanship of the tradesmen who assembled such an elegant entrance to what would otherwise have been just another house in the street.

This has added considerable value and appeal to the home.

Every effort has been made to ensure accuracy in this publication, but Accumen Ltd accepts no liability for any errors of fact or opinion expressed.
